The Intech Energy Container -- or ECON -- is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container.

Witness how a shipping container solar system changes the face of power access. Discover the benefits of solar containers, real-life applications, and solutions for off-grid power.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Discover how to build a self-sufficient off-grid shipping container cabin using solar, wind, and rainwater systems -- the perfect eco retreat for 2025.

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini power station using solar panels.

By combining solar panels and storage in solid, mobile shelters, solar-powered shipping containers are providing solar electricity from cities to rural villages around the world, ...

Witness how a shipping container solar system changes the face of power access. Discover the benefits of solar containers, real-life ...

Among the innovative solutions paving the way forward, solar energy containers stand out as a beacon of off-grid power excellence. In this comprehensive guide, we delve into ...

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed

worldwide. These include solar PV panels and mountings.

This is a detailed walk-through of the planning and installation of our 3kW - 5kWH - 120V off-grid solar system that powers a rehabbed shipping container.

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini ...
