Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

Are Jenbacher containers available for gas engines?

Jenbacher containers are available for Type 2, 3, 4 and 6 gas engines. Our containerized solutions ensure excellent reliability for your power and heat generation needs.

What is the standard ventilation temperature for genset containers?

The standard ventilation is designed for ambient temperatures from -25°C to +34°C. All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements.

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades ...

Only new shipping containers are used for manufacturing generators ranging from 800kva - 2000kva. Noise levels on these sets are between 68 - 76 Dba @ 7 meters. Our generators ...

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized ...

Our 1000 kVA container diesel generator can assist with your planned or emergency power generation requirements. Whether on or offshore - our 1000 kVA generator hire service offers ...

Besides selling engines, generator sets, and power leasing, it also acts as a central warehouse and repair service station for various manufacturers' spare parts, ensuring original quality parts.

As demand grows across industrial, residential, and commercial sectors, generator sets -- particularly the containerized variants -- will continue to be a cornerstone in Africa's ...

We specialise in offering high-quality bespoke containerised generators from 110kW to 3.5MW for Diesel, LPG, CHP, and NG Gas application

Only new shipping containers are used for manufacturing generators ranging from 800kva - 2000kva. Noise levels on these sets are between 68 - 76 ...

The generator sets market is experiencing a shift towards more innovative and sustainable solutions such as containerized generator sets. Ongoing research and development are aimed ...

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of ...

The industrial sector remains the backbone of the Africa generator sets market, but commercial and residential growth is steadily catching up due to power instability.

Our experienced conversions team can design and fabricate shipping containers with cooling louvres that enable the use of a generator in any environment.
