Will China build a lithium-ion battery factory in Portugal?

February 2025 Chinese battery manufacturer CALB has confirmed its plans to build a production facility for lithium-ion batteries in Portugal. The factory with an annual capacity of 15 gigawatt-hours is intended to start production in 2028. According to CALB, the investment amounts to two billion euros.

Which EV batteries are made in Portugal?

As top 10 battery manufacturers in Portugal, CATL's main products in EV batteries are LFP (lithium iron phosphate) batteries, NCM (nickel cobalt manganese) batteries, shenxing battery, and qilin battery. CATL energy storage system (ESS) products are used to generate wind and solar power. Also a solution for grid-based energy storage.

Why should Portugal invest in a battery factory?

"Our factory will not only create new jobs but will also place Portugal at the forefront of the production of batteries for electric vehicles in Europe," he highlights. According to CALB, "this strategic investment" aims to "reinforce its presence in the European market for electric vehicles (EV) and energy storage systems (BESS)".

Is Portugal a good place to invest in lithium-ion batteries?

In the battery technology industry, Portugal has the potential for further growth in the future, especially in the field of lithium-ion batteries and energy storage. Portugal is one of the countries with the largest lithium reserves in Europe.

Madrid-based BNZ has become the latest developer to go all-in. The company quietly expanded its Portuguese budget to EUR600 M, ...
