What is a concrete batching plant hopper?

JEL's concrete batching plant hoppers are engineered to consistently provide reliable and accurate material delivery to keep your batching process running smoothly and efficiently. Our concrete hopper lineup includes: Precisely meter and deliver cement to your batch plant with our high-quality cement hoppers.

What is a mobile ready mix batching plant?

Our cost-effective mobile ready mix batching plants set up quickly and easily. Electrical wiring and plumbing are pre-installed, so they're ready to go on delivery. The portable plant is an accumulative weighing system plant that uses a traditional multi-compartment overhead aggregate storage bin.

Where can I buy a hopper & bin for a concrete batch plant?

JEL Concrete Plants produces custom hoppers and bins for concrete batch plants nationwide. We happily serve customers in Arizona, Pennsylvania, Washington, Iowa, Colorado, Virginia, Oklahoma, Wisconsin, Minnesota, Michigan, Texas, California, Florida, New York, Illinois, Georgia, North Carolina, Ohio and beyond.

Why should you choose a cement plant equipment supplier?

Ensuring structural integrity with high-quality design and robust construction is essential. Choosing the right vendor is key to a cement plant's long-term performance. Equipment suppliers don't just provide machinery--they improve processes, lower energy use, and increase equipment lifespan.

Concrete hoppers, aggregate bins and conveyors for small to mid-size concrete plants. Standard & custom builds from JEL Concrete Plants. Request a quote today.

They are the most ergonomic and easily transportable batching plants made by PROTEM, offering one of the highest productivity and aggregates storage capacities in the market.

From portable, trailer-mounted units to large, stationary concrete plants, our engineers will work with you to determine the cold feed bin best suited to ...
