What batteries do I need for my solar system?

We have 24V and 48V lithium solar batteries to fit you with the right system for your solar application! BigBattery provides lithium-ion battery packs that are perfect for powering any off-grid solar application. Browse our products today to find what you need.

What are bigbattery off-grid lithium batteries made of?

BigBattery off-grid lithium battery banks are made from LiFePO₄ cells, which are the best energy source because they store more energy than any other lithium or lead-acid battery. Our solar batteries are the lowest-priced energy source in the long run and are cheaper than lead-acid batteries.

Which battery bank is best for a home solar panel system?

Home solar panel systems need a way to store all the energy they produce, which requires effective, efficient and powerful solar battery banks. BigBattery off-grid lithium battery banks are made from LiFePO₄ cells, which are the best energy source because they store more energy than any other lithium or lead-acid battery.

Does bigbattery have a solar battery?

With built-in BMS and numerous safety features, you can rest easy and let our solar battery do the work for you. We have 24V and 48V lithium solar batteries to fit you with the right system for your solar application! BigBattery provides lithium-ion battery packs that are perfect for powering any off-grid solar application.

The EnerC+ container is a modular integrated product with rechargeable lithium-ion batteries. It offers high energy density, long service life, and ...

These battery packs are light-weight, eco-friendly, provide long battery life, and are fully PCB protected. All of these packs are made with UL1642 compliant 18650 cells, meaning they have ...
