Does San Jose have a solar rebate program?

The Self-Generation Incentive Program (SGIP) offers generous battery rebates--up to \$1,000 per kWh--for customers in high fire-risk zones or low-income households. Local Community Choice Aggregation (CCA) programs, like San Jose Clean Energy, can offer rebates for solar or battery purchases.

Can low-income homeowners get free solar & battery backup systems?

California is making it easier than ever for low-income homeowners to go solar with free solar and battery backup systems through the Self-Generation Incentive Program (SGIP). Starting May 20th, 2025, Store Energy California is ready to help you tap into the \$280 million in new funding for the Residential Solar and Storage Equity (RSSE) program.

Can a battery be used as a home solar system?

With SGIP, homeowners in Calif. can install a battery as part of their home solar system at little to no additional cost, depending on your qualifications. Combining your SGIP savings with the 30% federal investment tax credit (ITC) can cut your solar-plus-storage costs in half.
