The government of Kosovo this week announced it will build a battery energy storage system (BESS) with a capacity of 200MWh-plus to deal with the country's energy crisis. [pdf]

The port city's ambitious plan to reduce shipping emissions by 40% before 2030 has created booming demand for intelligent battery systems that combine solar power integration with ...

The AES Dominicana Andres - Battery Energy Storage System is a 10,000kW energy storage project located in Santo Domingo, Dominican Republic. The electro-chemical battery energy ...

The Santo Domingo team recently partnered with Tesla Energy to install 200 MW of battery storage at the lower reservoir. This hybrid approach could boost overall system efficiency to ...

Discover innovative battery storage solutions that enhance energy efficiency and support sustainable power initiatives. Explore how advanced storage technologies are revolutionizing ...

The new Belize Energy Resilience and Sustainability Project will deploy state-of-the-art battery energy storage systems across four strategic locations in the country, marking a significant ...

Well, Santo Domingo's new 120MW/240MWh battery storage project proves sunshine alone won't solve our energy problems. As climate change intensifies hurricane patterns, the Dominican ...

A notable achievement is the upcoming launch of the first four-hour energy storage system linked to a solar project, set to be operational ...
