-----  
How big is the 5G base station equipment market?

The 5G base station equipment market is estimated to reach US\$52.733 billion by 2030 from US\$29.865 billion in 2025, growing at a CAGR of 12.04%. 5G base stations form the backbone of next-generation wireless networks, enabling enhanced bandwidth, ultra-low latency, and broader coverage to support rising connectivity demands.

Does Senegal have a 5G network?

Orange Senegal and Free Senegal launch 5G after securing spectrum in the 3.5GHz band. Axian Telecom increases its stake in Free Senegal to 80%. Senegal's internet services remain susceptible to government censorship.

Does Senegal have a telecom market?

Senegal's telecom market continues to show steady growth in all sectors. This has been supported by the government's ambitions to develop a digital transformation of the economy using ICTs and wider access to internet connectivity.

What is the future of 5G infrastructure?

Major players include Huawei, Samsung, Nokia, Ericsson, and Cisco. As smart cities, IoT, and mmWave technology expand, the 5G infrastructure market will continue strong growth, shaping the future of high-speed connectivity.
