With a maximum water flow of 3.8 m³/h and a water lift head of 123m, this pump is designed for small power and large head applications, perfect for household water supply, animal ...

Permanent magnet DC brushless synchronous motor, designed for solar, with 15-20% efficiency improved. - 1 x WBS 4" DC stainless steel solar Pump with 2m cable.

DC Solar submersible pumps are fitted with a permanent magnet, brushless motor, which get the power from the sun, you will never have an electric bill. 3HR series solar helical rotor pump ...

Experience unparalleled water delivery capabilities with the Whaleflo 1200W Brushless DC Solar Water Pump. Designed for optimal efficiency, this pump boasts an impressive 180-meter head ...

With a powerful 750W brushless motor, this solar pump operates at a voltage of 72V, ensuring optimal energy conversion and minimizing power ...

Whether it's for agricultural irrigation, drawing water from deep wells, or handling sensitive processes in the petrochemical or medicinal industries, our solar DC brush-less ...

72 volt solar water pump with special DC controller has maximum head 56~95m (180~310ft), maximum flow 925~1585 gallons per hour, single-suction plastic/stainless steel impeller, 3 ...

With a powerful 750W brushless motor, this solar pump operates at a voltage of 72V, ensuring optimal energy conversion and minimizing power consumption. Designed for versatility and ...

Experience efficiency with the Brushless Solar Submersible Pump with Controller Model# 3HR1200-180/2.3C. Enjoy its durable design and advanced features!

Featuring a built-in MPPT controller, our pumps offer power options from 300W to 2200W, covering 24V, 48V, 72V, 96V, 144V, and more to meet all your needs.

The solar PV system voltage needs to meet the voltage range in the figure below. For example: The DCPM21-14-72-750 model matches the solar panel voltage between 50V~150V.

The solar PV system voltage needs to meet the voltage range in the figure ...
