Reduce utility costs, achieve energy independence and meet sustainability goals with renewable on-site solar power-and even sell surplus energy ...

Explore the differences between on-site and off-site solar energy systems, their benefits, costs, and which option suits your home or business needs best.

By harnessing the power of the sun, Sunveera On-Site empowers your business to: Generate clean, on-site electricity to significantly decrease your dependence on traditional power ...

To achieve sustainability goals while meeting the increasing electricity demands of electrification, organizations are pairing on-site solar PV generation with on-site energy storage.

Onsite solar is an asset located where the renewable energy generated will also be consumed. There are three main types of onsite solar: rooftop, ...

On-site generation gives your facility the power to operate reliably, reduce grid dependence, and control energy costs. From commercial solar arrays to linear generators and combined heat & ...

This fact sheet explores how to maximize the advantages of onsite renewable energy generation, specifically focusing on solar photovoltaic (PV) systems.

Reduce utility costs, achieve energy independence and meet sustainability goals with renewable on-site solar power-and even sell surplus energy back to the grid.

Onsite solar is an asset located where the renewable energy generated will also be consumed. There are three

main types of onsite solar: rooftop, ground-mount, and carport.

Through our onsite solar program, we install solar panels at your facility at no cost upfront to you, then we provide electricity to the facility at a fixed price for the next 20 years.

Whether you select an onsite, offsite or community solar program, or you choose to leverage our Retail + Renewables Program, Gexa Energy can help you find the solution that achieves your ...

When a solar system is installed directly on the purchaser's property, and the renewable energy that it produces is consumed there, it's considered an onsite system.
