Why should you choose sunpal solar lithium batteries?

Discover Sunpal Solar Lithium Batteries - engineered for long-lasting energy storage in Malaysia's demanding conditions. With 6,000+ cycles, lightweight design, and maintenance-free performance, our batteries are perfect for home solar systems, off-grid setups, and backup power solutions.

Should I buy a solar battery for my solar installation?

When purchasing batteries for your solar installation, the following factors are crucial: An efficient battery allows you to make use of its highest possible power capacity, considering the energy it was able to absorb during charging. Not all solar panel manufacturers and solar battery brands are created equal.

How long do solar batteries last?

Some brands produce lead-acid batteries, while others produce lithium ion solar batteries. The warranty illustrates the level of capacity loss that a solar battery will sustain after a specific number of years. With some batteries, capacity loss may be at 30% after 10 years or 50% after 15 years, depending on manufacturer guarantee.
