-----

We have more than 100 production line orders from domestic head customers, such as EVE, Huawei, GAC, Midea and other well-known domestic brands, and also sell to many production ...

With an annual capacity of 60,000 battery modules, the new automated lithium battery production line integrates intelligent loading, high-speed laser welding technology, robotic stacking, and ...

Openex specializes in custom fabrication of platforms, tanks, enclosures, and structural parts for lithium battery production lines using carbon steel, stainless, aluminum, and nickel alloys.

First, the battery cells are put into the production line manually, then the production line equipment automatically scans the battery cells, and at the same time carries out the ...

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

Lion Energy is developing a manufacturing line at its Utah facility for battery rack modules (BRM) and large energy storage cabinet ...

Lion Energy is developing a manufacturing line at its Utah facility for battery rack modules (BRM) and large energy storage cabinet assembly. The manual line will be used as a ...

The race to build efficient large energy storage cabinet production lines as renewable energy goes mainstream. Let's roll up our sleeves and explore how these industrial beasts transform metal ...

Luna Storage and LAB are standalone lithium-ion battery storage projects in Lancaster, Los Angeles County,
