The Intech Energy Container -- or ECON -- is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container.

Help others learn more about this product by uploading a video!

A Higher Wire system includes solar panels, a lithium iron phosphate battery, an inverter--all housed within a durable, weather-resistant shell. Our systems can be deployed ...

Choosing the right solar LiFePO4 battery is crucial. It impacts the efficiency and reliability of your container solar power system. LiFePO4 batteries have a longer lifespan, ...

Solar & UPS backup power system battery enclosures for off-grid or grid-connected solar systems. SES offers a wide variety of large outdoor battery and electronics enclosures for ...

Discover the benefits and features of Containerized Battery Energy Storage Systems (BESS). Learn how these solutions provide efficient, scalable energy storage for ...

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini power station using solar panels.

Choosing the right solar batteries for your off-grid system means considering capacity, depth of discharge, cycle life, and cost. Portability might also be a factor if you're not ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.
