-----  
How many solar projects does CleanCapital own?

NEW YORK, June 24, 2025--CleanCapital has acquired a 6-project portfolio, totaling over 27 MW of solar and 25 MWh of battery storage assets in MA and CA.

Why did CleanCapital invest in solar & energy storage?

This latest investment marks a strategic expansion of CleanCapital's operating solar and energy storage capabilities. CleanCapital remains mission-driven, focused on delivering clean megawatts to the grid and meeting the growing energy needs of consumers and businesses - supporting the American energy dominance agenda.

How many solar and energy storage assets are there in Massachusetts?

The six acquired solar and energy storage assets in Massachusetts and California total to 27.3 MW solar and 25.2 MWh storage.

Are energy storage containers a viable alternative to traditional energy solutions?

These energy storage containers often lower capital costs and operational expenses, making them a viable economic alternative to traditional energy solutions. The modular nature of containerized systems often results in lower installation and maintenance costs compared to traditional setups.

SunGrid Solutions will continue its energy storage EPC operations across the United States and Canada, specializing in solutions ranging from 10 MWh to 1 GWh. The ...
