Will a 'nearshoring effect' affect solar glass business?

AGC Glass Europe announced in October 2023 that it expects significant growth in solar glass business due to the 'nearshoring' effect in the United States. This growth is attributed to its expansion of contracts with First Solar and plans to invest in a plant in Pennsylvania, as well as adapt existing PV glass facilities.

What is the demand for solar glass?

Andries Wantenaar, from market intelligence company Rethink Technology Research, said that "demand for solar glass is looking robust." "We're excited about the potential for domestic solar manufacturing growth to provide jobs and R&D development in the US," Solarcycle Chief Operating Officer (COO) Rob Vinje told pv magazine.

Why are solar glass suppliers investing in new production capacity?

As PV module capacity increases, glass suppliers are investing in new solar glass production capacity. New facilities are popping up in North America, with unique features to ensure competitiveness, such as using recycled material.

Is glass-glass a trend in solar modules?

Researchers at the US Department of Energy's (DOE) National Renewable Energy Laboratory (NREL) are looking into the trend toward glass-glass regarding module durability.

By integrating solar cells directly into glass panels, buildings can now generate clean energy without compromising their visual appeal. However, a common concern is ...

With this announcement, SOLARCYCLE's solar glass production capacity is almost entirely committed in long-term agreements. The facility is shovel ready, and the company is ...

SCHOTT and AZUR SPACE have jointly developed a new solar cell cover glass for space applications,

developed with funding by the European Space Agency (ESA) and the ...

An existing float line at the Rossford, Ohio factory of Pilkington North America, Inc., a member of NSG Group, has been converted to ...

PVTIME - On 22 July 2025, the European Commission announced the initiation of a second anti-dumping and anti-subsidy sunset review investigation into solar glass originating ...

In mid-March 2024, Canada's Silfab Solar, a high-efficiency module manufacturer with plans to expand into South Carolina, said it ...

California-based manufacturer Caelux has completed its first order for its perovskite-coated glass. The *Active Glass* technology ...

Herein, a glass transition temperature (T_g) regulation (TR) strategy is developed by introducing two polymerizable monomers, 2- (N-3-Sulfopropyl-N, N -dimethyl ammonium)ethyl ...

SCHOTT's Solar Glass exos features an advanced design for long-term performance in demanding space environments. Its optimized composition provides ...

California-based manufacturer Caelux has completed its first order for its perovskite-coated glass. The *Active Glass* technology enables module manufacturers to ...

Illuminate USA is taking U.S. solar manufacturing to the next level with a landmark five-year deal to source high-performance, American-made solar glass from SOLARCYCLE.

In mid-March 2024, Canada's Silfab Solar, a high-efficiency module manufacturer with plans to expand into South Carolina, said it would source glass from US-based PV panel ...

Herein, a glass transition temperature (T_g) regulation (TR) strategy is developed by introducing two polymerizable monomers, 2- (N ...

With this announcement, SOLARCYCLE's solar glass production capacity is almost entirely committed in long-term agreements. ...

Illuminate USA is taking U.S. solar manufacturing to the next level with a landmark five-year deal to source high-performance, ...

An existing float line at the Rossford, Ohio factory of Pilkington North America, Inc., a member of NSG Group, has been converted to begin producing TCO glass from March ...
