---

The project aligns with Togo's goal to reach 200 MWp of renewable energy by 2030. EDF Group will design, build, and run the ...

This initiative reflects the coherence and continuity of President Faure Gnassingbé's long-standing commitment to making Togo a model of sustainable development ...

Solar Roadmap, with the primary focus on the deployment of photovoltaics into Togo's electricity structure. The specific key steps followed by us, as recommended by the ...

Togo's new solar farm, co-developed by EDF and Meridiam with support from AfDB, SEFA, and Proparco, will generate 87 GWh of ...

Togo has launched a new solar mini-grid initiative to accelerate rural electrification, part of a national plan to reach universal, affordable power by 2030 through a mix of grid ...

The project entails the design, financing, construction, operation, and transfer of a greenfield solar power plant in Sokodé, the second largest city in Togo.

The project aligns with Togo's goal to reach 200 MWp of renewable energy by 2030. EDF Group will design, build, and run the plant, with co-financing from Proparco, the ...

Developed by French energy group Électricité de France (EDF), the project includes the design, construction, and operation of a brand-new solar power plant and an 11-kilometer ...

Find out how Togo is accelerating its energy transition with a 62 MWp solar power plant in Sokodé, supported by the African Development Bank and its partners.

Togo is leading the energy transition in Africa thanks to an ambitious strategy focused on solar energy. The country aims for universal access to electricity by 2030 and aims ...

The Kpalassi solar project is integral to Togo's energy transition strategy. It is expected to produce enough electricity to power approximately 700,000 households, ...

The Kpalassi solar project is integral to Togo's energy transition strategy. It is expected to produce enough electricity to power ...

Togo is leading the energy transition in Africa thanks to an ambitious strategy focused on solar energy. The country aims for ...

Togo's new solar farm, co-developed by EDF and Meridiam with support from AfDB, SEFA, and Proparco, will generate 87 GWh of clean electricity annually - strengthening ...
