Finnish technology group Wartsila Corp (HEL:WRT1V) has booked an order to supply a 7.8-MW/7.8-MWh energy storage system for a decarbonisation project at a gold mine ...

The Suriname Village Photovoltaic Microgrid Project is a major step toward expanding renewable energy in Suriname's interior. The initiative uses solar photovoltaic ...

Completed in 2020, these systems feature 650 kW of solar photovoltaics and 2.6 MWh of energy storage. The second phase of the project, also to be completed by POWERCHINA, will see ...

Containerized System Innovations & Cost Benefits Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal ...

This project, selected through an international tender with six proposals, will be the largest energy storage system in Central America once operational by the end of 2025.

As the World Bank prepares to replicate the Wellington model in 15 island nations, one thing's clear: small countries are driving big energy changes. Suriname's not just adopting storage ...

PowerChina is building three hybrid solar microgrids in Suriname, combining solar panels, energy storage, and diesel backup to power 25 remote villages across the country.

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid ...

As Suriname's Energy Minister joked at last month's conference: "We're not just storing electrons - we're
