Where is the largest battery energy storage system in Switzerland?

The project in Ingenbohl, Switzerland. Image: EWS AG. Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in Switzerland from 20MW to 28MW, making it the country's largest.

Which energy storage projects have been commissioned in Switzerland?

Axpo commissioned its BESS in February this year while utility Thurplus commissioned a 3MW system in September last year. But Switzerland was the location for one of the largest energy storage projects commissioned in recent years, a 20GWh pumped hydro energy storage (PHES) unit which started operations in June 2022 in the Canton of Valais.

Is BESS being monetised in the Swiss electricity market?

It is being monetised in the Swiss electricity market by both CKW, part of Axpo, and utility Alpiq, the announcement said. The BESS is part of a network of power plants, consumers and batteries, it added. The large-scale BESS market in Switzerland has been relatively quiet with renewable penetration on the country's grid still relatively low.

Its technology portfolio delivers customized short and long duration energy storage solutions to help customers reduce energy costs while maintaining power reliability.

Detailed info and reviews on 10 top Energy Storage companies and startups in Switzerland in 2025. Get the latest updates on their products, jobs, funding, investors, ...

Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in Switzerland from 20MW to 28MW, making it ...

Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in ...

Premium trailer-based battery energy storage systems acting as decentral microgrid for construction, events, and emergency power needs. Precision, reliability, and advanced ...

Primeo Energie will use our storage system to provide energy flexibility. The battery stores surplus electricity from renewable sources and feeds it back into the grid as needed. In this way, ...

Primeo Energie will use our storage system to provide energy flexibility. The battery stores surplus electricity from renewable sources and feeds it ...

Some of the key players in the Swiss energy storage market include Leclanché, which is developing lithium-ion batteries for grid-scale applications, and Energy Vault, which is ...

Innolith is an energy technology company that is pioneering an entirely new and safe battery technology platform. This will provide new ways of storing and using electricity for ...

With 60% of its electricity already coming from hydropower, the country is now blending old-school reservoirs with futuristic battery tech. Think of it as a "Swiss Army knife" ...

A new pumped-storage power station, one of the most powerful in Europe, came on stream in canton Valais in southern Switzerland in July 2022.

BTRY is a Swiss battery manufacturer that specializes in innovative energy storage solutions, including a high-performance solid-state battery that can charge in just one minute.
