Will electricity prices increase in New Taipei?

Electricity infrastructure in New Taipei on Monday. (CNA photo) TAIPEI (Taiwan News) -- Electricity prices will increase by an average of 12.5% for larger businesses, while fees for other customers will remain frozen, Taiwan's Ministry of Economic Affairs announced on Monday.

What are industrial inverters?

Industrial inverters are electrical power converters that change direct current (DC) to alternating current (AC). They are designed for industrial use to safeguard critical loads in places of high power shortage, such as high-rise buildings, offices, and industrial power plants. EnerTech delivers the finest industrial inverters that are efficient in saving energy bills even in the most extreme climatic conditions.

Will Taipower price increase in 2024?

This will be the second price hike in 2024. Taipower, the state-owned utility company, is currently losing NT\$0.4 for every kilowatt of power sold, and the price increase is necessary to ensure the company can continue to develop and maintain a stable power supply, the ministry said.

Can industrial inverters be profitable?

Industrial inverters are profitable and are available in single and three-phase versions that work parallel to the grid. Their capacity ranges from 5KVA to 300KVA, and they come with a 32 bit DSP design display. The PFC battery saves 50% of the electricity and has an eight to ten hours battery backup.

The correct choice of inverter for a commercial solar and battery system will depend on a number of factors, including the size and configuration of the solar array, whether there is a battery ...
