-----

If it is the largest, it may not be the majority if there are three or more parts. If something is 40%, while two other things are 30% apiece, it's the largest, but it does not ...

Would it be ok to say "from smaller to larger" or do I have to say "from smallest to largest"? E.g., I'm using the batteries from smallest/smaller to largest/larger capacity.

It might be used for the largest, but it is quite an obscure word - Merriam-Webster restricts its use to elections. In your case with less than 50%, the best option is a superlative ...

Take Nepal's first solar-storage PPA signed last week - a 25-year deal guaranteeing 14% IRR through monsoon/winter price arbitrage. As Asian Development Bank's energy lead Priya ...

In "the single largest factor", "single" is technically redundant, save for excluding the possibility of joint winners. When used (by someone who understands the language) it's ...

On the eve of World Environment Day on 5 June, the Nepal government utility inaugurated the first phase of its first 25MW solar array that will feed electricity directly into the ...

Gham Power, in collaboration with Practical Action and Swanbarton, has been awarded a project by the United Nations Industrial Development Organisation (UNIDO) to ...

The Barju Solar PV Project, now officially Nepal's largest solar power plant, has been successfully connected to the national grid. This ...

The Nuwakot Solar Power Station, a 25-megawatt plant, is a significant step in this direction, generating clean
