The repositioning of empty containers is one of the most complex problems in global freight distribution today. There are few balanced trade routes and larger ocean vessels have ...

A five-in-one foldable container design could boost efficiency and transform the carriages of empties, claims Florida-based Compact Container Systems (CCS).

By bypassing the need to transport empty containers to a dedicated folding facility and instead folding and bundling them on-site, SKLADX achieves significant cost savings.

We design foldable intermodal shipping containers that exceed ISO and CSC standards, and the systems needed to fold them standing upright in bundles, safely and quickly.
