Should you buy a portable power station?

Whether using a portable power station at home, camping, or on the jobsite as a power tool recharging station, it's vital to invest in a product that will withstand any method of transportation and any possible impact damage that could occur.

Can You charge a portable power station with a wall outlet?

Most portable power stations can be charged by an AC wall outlet plugin or with a DC car plugin, but Bluetti offers 5 other options in many of their larger power stations to ensure that you always have a way to charge your battery no matter what's going on in the world.

What accessories do you need for a portable power station?

One of the most common accessories is going to be a cord to connect to similar power stations in series, often times doubling your power output. Some portable power stations have a light bar built into the housing, which is useful for seeing at night. Anker's Solix C300 also includes a pop-up camping light.

What are the best portable power stations for camping?

A California based company founded in 2012, Jackery was one of the first portable power stations designed for camping. Each of their portable power stations has a built-in handle for easy carrying, and they introduced lightweight solar panels that pair perfectly for easy charging on the road.
