What is a folding container?

A folding container is a resin-made box that can be compactly folded when not in use. Folding reduces the size to about 1/3 to 1/4, so can be stored compactly during storage and transportation. In addition, containers can be folded and assembled easily and quickly, and can be stacked in both folded and assembled states.

How do you use a folding container?

A folding container can be used more conveniently by utilizing an inner bag that protects your luggage from dirt, a cushion that protects your luggage from impacts, or a cold insulation bag. Read more
