-----

Exhibitors come from 20+ countries, including global leaders in solar, wind, hydrogen, energy storage, EV charging, software, consulting, and green ...

Green Energy Expo Zagreb 2025 is the top event showcasing green hydrogen, solar and wind power, waste-to-energy, and battery energy storage.

The conference will focus on integrating flexibility into the power grid, with a special emphasis on battery storage systems, which are becoming increasingly vital for the stability and efficiency of ...

Join the 2025 6th International Conference on Clean and Green Energy Engineering (CGEE 2025) in Zagreb, Croatia, from August ...

Join us in Zagreb, Croatia, on October 21, 2025, for the Solarplaza Summit Balkans PV & Storage--the leading industry event connecting solar energy professionals across the ...

The discussion made clear that energy storage is becoming the backbone of the modern power grid, enabling flexibility, stability and progress toward a carbon-neutral future.

The Energy Storage Obligation (ESO) specifies that the percentage of total energy consumed from solar and/or wind, with or through energy storage should be set at 1% in the 2023-2024 ...

Join the 2025 6th International Conference on Clean and Green Energy Engineering (CGEE 2025) in Zagreb, Croatia, from August 23-25, 2025, and take part in ...

Exhibitors come from 20+ countries, including global leaders in solar, wind, hydrogen, energy storage, EV charging, software, consulting, and green construction.

The study will take into account the broader regional context and the accelerated growth of renewable energy sources, not only in Croatia but throughout Southeast Europe, ...

The Solarplaza Summit Balkans 2025, taking place on October 21 in Zagreb, Croatia, is a premier event for solar energy professionals across the Balkan region. It aims to ...

As the first international event of its kind in Croatia, the Expo showcased the latest advances in green energy, including green hydrogen technologies, solar and wind energy, ...
